### 👤 SUMMARY

I am a results-driven Software Engineer with three years of professional experience in designing, developing, and maintaining high-quality web-based applications. My expertise lies in utilizing ASP.NET Core, MVC, Web API, and modern frontend frameworks, with a strong focus on delivering scalable solutions and optimizing performance. I excel at collaborating with interdisciplinary teams to meet tight project deadlines and enhancing user experience.

### 👤 EXPERIENCE

**Crunch Craft**                                            Lahore

Software Engineer                                  09/2021 - 01/1970

A company specializing in software engineering and development.

- Spearheaded the design and development of responsive web applications using ASP.NET Core, Entity Framework Core, and Visual Studio.
- Architected and implemented RESTful APIs for seamless communication between client applications and third-party integrations.
- Developed interactive and user-friendly interfaces with modern technologies like ReactJS, HTML5, CSS3, and JavaScript.
- Designed and optimized complex database schemas using Microsoft SQL Server, achieving high reliability and performance.
- Streamlined project delivery by adopting Agile methodologies and collaborating with cross-functional teams.
- Enhanced codebase maintainability by implementing best practices for software design.
- Improved system scalability and maintainability through modular design and clean architecture principles.

**Crunch Craft**                                            Lahore

Dot Net Developer Intern                          06/2021 - 09/2021

A company specializing in software engineering and development.

- Supported the development of dynamic web applications using ASP.NET MVC and Web API.
- Gained hands-on experience in developing backend systems and integrating with frontend frameworks.
- Debugged and resolved complex application issues.
- Delivered modular, reusable, and maintainable code.
- Collaborated with team members to brainstorm and implement innovative solutions.
- Assisted in implementing authentication and authorization mechanisms.

### 🎓 EDUCATION

**Superior University Lahore**                               Lahore

Bs In Computer Science                            11/2016 - 12/2020

**Unique College**                                         Pattoki

Intermediate                                      08/2012 - 06/2014

# 📄 PROJECTS

## Cakes and Bakes
03/2022 - 01/1970

A project involving the development of an e-commerce platform for a bakery business.

- Developed a fully functional e-commerce platform tailored for a bakery business.
- Designed an engaging user interface using ReactJS.
- Built a powerful backend to handle inventory management, user roles, and order processing.
- Integrated secure payment gateways and developed user authentication mechanisms.
- Conducted comprehensive testing for device compatibility.

## Kips Publications
06/2022 - 01/1970

A project focusing on enhancing the shopping experience for educational materials.

- Engineered a comprehensive e-commerce platform for educational materials.
- Created an intuitive user interface with ReactJS for product exploration and checkout.
- Developed an admin dashboard for efficient product management.
- Implemented modular architecture and enhanced responsiveness using Bootstrap.
- Conducted comprehensive testing across browsers and devices.

# ♥ PASSIONS

- **Hobbies**
  Enjoy playing cricket and badminton, and love reading and traveling in my free time.
